PRISONER OF ZION – for fear of the Jews!
LETTERS FROM AUSTRALIAN POLITICAL PRISONER BRENDON O'CONNELL
<http://brendonoconnellincarcerated2.blogspot.com.au/>

Please note that anyone who corresponds with a prisoner and receives replies must be aware that such content is ultimately available in the public domain, and hence like writing and sending emails, is a public act. If you are secrecy obsessed, as are those who use information as a weapon of subjugation or gain, then it is unwise to write to a prisoner. Think of the legal principle contained in the **>clean hands doctrine** n. a rule of law that a person coming to court with a lawsuit or petition for a court order must be free from unfair conduct (have "clean hands" or not have done anything wrong) in regard to the subject matter of his/her claim. His/her activities not involved in the legal action can be abominable since it is considered irrelevant. As an affirmative defense (positive response) a defendant might claim the plaintiff (party suing him/her) has a "lack of clean hands" or "violates the clean hands doctrine" because the plaintiff has misled the defendant or has done something wrong regarding the matter under consideration. Example: A former partner sues on a claim that he was owed money on a consulting contract with the partnership when he left, but the defense states that the plaintiff (party suing) has tried to get customers from the partnership by spreading untrue stories about the remaining partner's business practices.<http://legal-dictionary.thefreedictionary.com/><.

18 March 2012

Dear Fredrick,
Into the 12th day. Weak but good. Another psychiatric review this week. Hopefully sane twice in a row. They will push these reviews constantly. Your phone is always off. Mail is being sent back to you, but I got printout and \$50, much appreciated. Go daily to be weighed, BP, BSL, etc. Occasional bloods. I'm in solitary. No TV or modcons, just a bare cell which is fine by me. 23 hour lockdown. Chaplain is bringing me books on the Orthodox faith. Very nice man.

Spoke with Dr. Walsh, and he is writing the prison a letter describing the disgusting behaviour of the WA legal system. Note that CJ Wayne Martin also plonked himself in on two of Wayne Glew's actions in the Supreme Court uninvited. Nice to be the "Chief" Justice. That man is so arrogant he's going to be brought to account and suffer acute ego deflation. I hope he can take it.

Take care,
Brendon

20 March 2012

Dearest Fredrick old son,
Hope you are rested. It's the two week mark now and still going strong. Weak of course but have built backup to 17 pushups. This morning my mind was quite sharp for the first time since starting. I presume the body has fully adapted to fat burning.

The Doctor has prescribed me 1 multivitamin a day, yet to see it, but hopeful.

Slowly but surely the wheels turn.

Have lost my sense of smell. Eyes are going a bit. Coincidentally, picked up a book on prison life and Bobby Sands was in it. 10 died before the British Government relented. But, they got their political prisoner status back. An expensive transaction.

I'm wondering if the Supreme Court will come out with a statement regarding my protest? Maybe ... "We don't negotiate with terrorists"?

Anyway, just passing the time. Saw David and another friend Robert who is deep within the Catholic Church. Hopefully word will spread. David sent me 4 Orthodox Icons which have really lifted the spirits.

Have been studying the Quran also at this time. On the subject of "women", the Quran is most fair. How anyone could say the Quran preaches abuse of women I don't know. That doesn't mean of course that people don't read into things what they want.

Anyway, time for lie down.

Brendon

22 March 2012

Hi Fredrick,

Got your letter/newsletter, Dated 19-3-12. Always good to get them. Day 16 now. Physically, starting to bite but a multivitamin prescribed made a world of difference. Well, I certainly can't complain about the medical care. Others may beg to differ.

Looking forward to your April visit. Your Yatala weight loss will be no match for me.

Spoke to Mark Glenn yesterday, and he took a recording to publish. Apparently he said there is much interest.

One of the things that has often bugged me (as you know) was the behaviour and manipulation of Elaine Eddington, thankfully that has passed. The lesson has been learnt. Like you said they can only do what they can do, but from now on I won't compromise on help and "wing it". Mark Taylor is doing a great job. A man I asked people to contact for 8 months almost. Live and learn. I'm sure it's all meant to be.

I hope you enjoy E's and her magical "Skio" machine that heals all. Enjoy!

Down to 92 kg from 102 kg. Another 10-15 kg to go. Saw David (you stayed at his house when you first came over) and Robert who is deep within the Catholic Church. Maybe the Pope will issue a Papal Bull freeing me? Good to see them both. Robert was hoping to meet you. He knows of you.

Well, that's it from me. Hopefully out soon, but I wouldn't count on it. I feel a long battle coming on. Dr. Walsh is writing a detailed letter to the prison detailing the gross abuse of process. I'll send you a copy.

Regards,

Brendon

25 March 2012

Dearest Fredrick,

Well, the "fuel" of my watered down 'Gatorade' sports drink should last an hour or so. So, time for a little letter.

My decision to go forth on this little venture came about over a month. I was not about to hop into this and pull out halfway. I had to mean it and sacrifice some comfort - mainly food, something I enjoy immensely. Something they don't tell you about in the hunger strike handbook is the unremitting slight nausea and eternally dry mouth which means you sleep lightly, if at all, which was something I never saw coming. Day 16 was the worst where I really wondered if I could keep going. The ketones from burning fat and muscle have really built up, making your blood acidic and toxic, creating the nausea and leaving a constant metallic taste in your mouth. This has been relieved somewhat by the introduction of a watered down sports drink with glucose and electrolytes which has made a big difference. I could barely string sentences together by day 16. The legs were heavy and the speech slightly slurred. The prison transferred me to the infirmary due to 'duty of care' issues, and the fact that the Unit 1 solitary cells were a long way from the medical center that I had to walk to every day for a check up. My body is doing fine. No cockroaches here in the infirmary which is a bonus. Prison Officers reported a definite lowering of cockroach numbers since my arrival there/ My "cockroach kill" hours were from about 7 pm - 9 pm which served as entertainment and a form of exercise. I turn the lights on and off every 15 minutes and out they'd come. I'd just wrap up toilet paper and squish them. I must have sent 300+ to paradise. One must remain useful even while staging a non violent resistance exercise involving self starvation.

Now, on living it up in the infirmary, I feel quite guilty. No "infirmary" for the Palestinians in Israeli jails hunger striking - just a swift kick to the ribs. So my suffering, though real, is minor compared to other people in other places.

Of note is the synchronicity of commencing this action during Great Lent - 40 days of abstinence from worldly pleasures and rich foods with complete fasting in between. Also - Bobby Sands and many other Irish political prisoners began their hunger strike at the infamous Maze jail. I started on March 7th, he started on March 3rd. Again - totally coincidental but a pleasant surprise. So, I use the time wisely. The whole point of Great Lent is to exhaust physically the Monastic adherent. Prayer is constant; from 4.30 am to 6.30 am;

11 am to 1 pm; 4 pm to 6 pm and the daily work cycle of the Monastery continues. The ego defences are so lowered that deeply repressed emotions and insights come to the surface and are "purged" through repentant tears. No visitors are allowed at the Monastery during this time. For the average Orthodox Christian things are not so intense, but the exercise – if taken seriously – is meant to produce a profound change. In today's busy world that is increasingly hard to do.

I'm doing regular calls to Mark Glenn and am grateful of the kind messages of concern. However, I'm going to take this as far as I can go. It's something I must do, not just for myself, but for the dozens of others shafted by this corrupt system I have met in here. Until you have been to jail you will never understand just how unjust justice can be. And this is a "1st world" democracy, or as I like to call Western Australia – "Hazzard County" or "The Wild West".

I feel a great deal of disgust when you talk of Horst Mahler? 12 years? Germany should be ashamed of herself. I'm reminded of East German authorities so secure in their offices till the 'worm turned'. The Elite always think their decisions are never going to catch up with them. Germar Rudolf gets me the most – 3 years for merely showing that Fred Leuchter's work, showing the lack of any cyanide residue in the 'gas chambers' of Auschwitz, was right. This is pure madness. In sowing such injustice, the oppressor better watch out for the harvest.

Anyway, with 'prayer without ceasing' and fasting, I haven't levitated yet, but I'm working on it. The local Kwinnana paper has put a short article in about a prisoner on a hunger strike. Colleen Egan, assistant editor of the daily West Australian paper has received all the paperwork. I continue to remain sane. All is well. The truth has legs. Lies burn out and fade away. The appeal has been over for a month officially. They have yet (obviously) to give their decision. It matters not to me what they say, the public is going to find out all the lies and deceit from the Jewish community and others. Let Steve Lieblich and Co talk themselves out of this one.

Best regards to all,
Brendon

31 March 2012

Well Fredrick,
Writing Saturday evening just before lockup. 26 days tomorrow and going strong, though weakening. Take a 750 ml bottle of watered down Gatorade a day and a multivitamin at night which wards off to some extent the worst effects of "self starvation". Without the Gatorade I couldn't write. It gives enough glucose for the brain to function. The electrolytes in Gatorade and the multivitamin extend the "safe zone" as it were, when on hunger strike, otherwise I would be up for major heart problems (death) and seizure from

dropping potassium, magnesium and phosphates in the blood from only drinking water for 17 days.

I wish I could say I was suffering a great deal, but I am for the last week in every prisoner's dream zone – the infirmary. Though still physically uncomfortable at night and suffering a month of major sleep deprivation, I can only feel guilty at my conditions compared to the man in the article you sent me – Mr James 'Jimi' Townsend – locked up in Kanloops Regional Correction Center in Canada. Talk about a disgrace.

Told yesterday my magnesium had dropped below "normal" and I would be at greater risk of seizures. The all important electrolytes that keep the heart in good rhythm are steady.

The Doctor here wants me to go to hospital, but I don't feel I'm in the danger zone yet. Prison Management want me out, and all I have to do is give the word and I will get every prisoner's favourite trip – to the hospital, where with great relief sex starved crims can ogle the nurses. Such is prison culture.

I keep telling everyone my hunger strike ends when the legal games end. The good thing is I have been brought in contact with people, and have had to explain as a matter of course "why" I am going to this extreme – to avoid the mental health issue – the self starvation is purely political and simply the only way I can, through passive non violent resistance, express my frustration and disappointment at this farce. Staff express sympathy and shock when I show them a package made up explaining my case, but they express forcefully that they cannot become involved in such a political hot potato and focus purely on my mental and physical health. I wonder if Palestinians in Israeli jails get the same standard of care?

The Doctor here has indicated that even if I were to decide to eat now, I would have to be monitored in hospital, due to "re-feeding syndrome", where the sudden influx of carbohydrate causes the liver to rapidly use up the body's supply of potassium, magnesium and phosphates, and sudden death results. I'm sure that would bring much pleasure to a certain segment of the community and the 'professionals' protecting them from being brought to account. So, I'll do my best to avoid it. Currently I'm on the verge of requiring what's known as T.P.N or 'Total Parental Nutrition' whereby you are fed initially via an intravenous line. To do that requires a large bore catheter to be inserted into one 'sub clavian vein' – just where your collar bone is – and blood can be drawn regularly as well. I'm amazed I can remember all this stuff from nursing, as I used to work with these a lot with lung transplant patients, and those waiting for them. You need a large more permanent I.V. line for some things like large doses of antibiotics and TPN so you need a big vein. Of course, I get a little nervous about people having direct access to my heart via a large bore catheter with lots of different goodies being pumped in. Especially Potassium Chloride. I'd hate to

'accidentally' get a large 'bolus' dose and have my heart take a permanent holiday. KCL or Potassium Chloride btw is the key ingredient used in executions via lethal injection. First comes the sedative, then the muscle paralyzing agent and finally KCL to stop the heart. Be a tragedy to find out the Israeli Ambassador to Australia's niece worked on the ward. Maybe I'll go back to my original idea for food recovery of plain corn chips, pizza shape biscuits and Gatorade? Just for the record, I'm in excellent health, considering. I'll be sleeping with one eye open.

So, I've read all the Orthodox Christian books given to me over Great Lent and have come to navel gazing and toe wriggling for entertainment. Am about to delve more fully into the Qumran between Psalm recital and prayer.

Of note is the recent installation ceremony of the new Archbishop of Perth, Mr. Timothy Costello. On page 9 of "The Record" - Perth's Catholic paper - a large type quote reads:

"I'm looking forward to meeting the Archbishop and working with him to strengthen the Judeo-Christian values which sadly, in our society today, are being undermined. I look forward to working with him in that holy task".

Rabbi Dovid Freilich

Rabbi of the Perth Synagogue

I "gagged" when I saw this. My dear Rabbi was also "present" in Saint Mary's Cathedral for the ceremony. Rabbi Freilich of course appeared via video link from Jerusalem at my trial, to admit many things including that he was a "Pharisee" and that his most holy books are the "Babylonian Talmud", Rabbinic Commentaries and the "Shulkan Aruk" - the Old Testament ("Tanakh") is for old Jewish grandmothers and school girls. The real business is in the great Rabbi's "commentary" on what God wants, and we all know what's in those books Fredrick, don't we? Further, consider this for irony ... the new Archbishop's personal coat of arms includes an emblem signifying his personal devotion to the Mother of Jesus - and the installation took place in a Cathedral dedicated to "Mary". I would invite Fredrick that you look up the Perth Hebrew Congregation website and ask on the special email form (respectfully) a couple of questions:

(1) Jesus - in the Talmud - is boiling in "what" place and in "what" substance?

(2) Blessed Mary - in the Talmud - is described as a "what"?

If our Orthodox Rabbi Freilich responds, send it on to the new Archbishop. Also, please send an email to Archbishop Costello that when he's working with Rabbi Freilich, he might want to check on the "convergence" of "Judeo"(Rabbinic Pharisaic Judaism) and "Christian" values ? To coin a secular term Fredrick, Rabbi Freilich is "taking the piss". One might also ask if our "Judeo-Christian values" are in congruence with Rabbi Freilich's former boss in Jerusalem - the Pope - Sephardic Rabbi

Yosuf, who stated 18 months ago that "Goy" - non Jews - were put on the earth only to "serve the Jew" And that while the "Goy" (us) plough and reap, the Jew will ... "sit as an Effendi (Master) and eat". I enjoy watching a two year old child beat a square peg into a round hole, so I'd like to see Rabbi Freilich do the same, quoting his favourite books and former boss' comments into the aquare hole of "Christian values". Comedy is not dead Fredrick. Certainly not Divine Comedy.

God Bless,

Brendon

1 April 2012

Dear Fredrick,

Just some more thoughts on the subject of Rabbi Freilich and his attendance at Saint Mary's Cathedral. In the Orthodox Jewish fashion the name of Jesus is not even to be mentioned let alone the insults against Christ, his Mother and Christians in general who the Talmud call "Minnem". So there he was, right in the heart of the enemy's territory. Didn't blush, didn't even blink. Shapeshifters. Able to adapt to the environment - sociopath.

Musing on this I am reminded of the Ultra Orthodox Chabad Lubavitch Rabbi Friedman in New York - "I'm not into Western morality. Wage war the Jewish way. Kill men, women, and children. Destroy their Holy sites". Are these "Judeo-Christian values"? If Rabbi Freilich has found Grace in the Christian Church, maybe he should denounce the Chabad Lubavitch headquarters on Alexander Drive in Perth? The same place where the poor fellow Stanley Elliot Keyser goes to regularly. But then, hypocrisy is all of their middle names.

Brendon

1 April 2012

Dear Fredrick,

The paper quote from the Catholic paper of Rabbi Freilich's. You should put a link to the purchase of Michael Hoffman's excellent book - "Judaism Discovered"

Brendon

2 April 2012

Dear Fredrick,

That mess with Huawei (Optus) has been brewing for about 5 years. The Oz government didn't want their employees having direct access to central telephone exchanges.

I'm not sure how to read it.

The Chinese could retort that Israel has virtual direct access to Australian telephone exchanges via Jews loyal to the state, as well as Israeli companies like Amdoc and Verint, and they are admittedly run by Israeli ex-military intelligence - but they're never "ex".

Most of the equipment in Australia's exchanges are produced by Erikson out of Norway. Verint of course are tapped into the exchanges via their data intercept hardware and software. Added to all this is the simple ability for Australian Jews loyal to the State Of Israel to obtain employment as a "tech" and get direct access to the network over broadband with an encryption key (USB thumb drive) which is logged. But you get the picture.

Add in the fact Israel has had since 2006 the largest Intel chip fabrication factory outside the US, and you see how they are slithering in everywhere. The factory produces desktop, laptop, mobile phone and router chips. In my little Netbook I found the wireless chip (broadband) was made in Malaysia and designed in Israel. I had to remove it when my Netbook was hacked, even though it had no cable or mobile broadband connected – the hard drive went crazy (they were looking for my asc encryption keys) and when I tried to turn it off, it refused saying ... "unable to log off other users logged on". The first thing one should do if worried about security is remove the broadband wireless card from the laptop. These things are made to be hacked but you can beat them. The maxim remains – "more security, less convenience. More convenience, less security".

I note that I instructed Mark to post all my material on Israeli intelligence activity on the blog. Almost immediately his internet has slowed to a crawl. This will all only get bigger and bigger and bigger Fredrick. Only public awareness of this issue will change it. Policing and intelligence agencies will be blocked from above as they always are.

Regards,
Brendon
P.S.

Corporations are a prime target for Israel. If ordinary people don't care about who has access to the network, then corporations sure do. Israel is notorious for filching corporate secrets. It then sells on the info, if it can't use it directly. America gives high tech to Israel which sells on to countries the US is prevented from selling to via Congressional limits – like China. The US has to build a credible enemy, China would have no space programme without US assistance. Israel sold the nuclear parts to Pakistan – now India is one of Israel's biggest military hardware clients. Arm the enemy and justify your defense budget, and cause countries to buy your weapons by arming their enemies. It's just BUSINESS baby.

Brendon

9 April 2012

Mein Lieber Herr Töben,

Just off the phone to you. Some confusion? I meant to say I have decided to carry on with the hunger strike. Physically I was well with all the supplements. I had another month in me. However, mentally I was totally

sleep deprived and finding the hallucinations quite disturbing. If I had been thinking clearly, I would have simply asked for 10 mg of Valium for two nights and gotten my sanity back. Now, after "giving up", I was kicking myself after two decent nights' sleep. I've had 2/3rds of a chicken sandwich, a cup of jelly, a small piece of chicken and beef, half a cup of some sort of cheese cake which all went right through me at the hospital on Thursday. In fact I came back from the hospital a kilo lighter, praising the Lord that I had made it safely back to the jail infirmary and safety after getting some ridiculous advice at the hospital. I had no idea a human gut could make such sounds. Over Friday/Saturday I had 2 l. of chicken soup stock with a cup of boiled rice and a cup of pasta. Then on Saturday evening I had a small plate of some sort of beef strip which sits in my gut still. Best of all I got some sleep and woke up kicking myself and have been ever since. But, you live and learn.

So, round 2. I will not allow myself to get so sleep deprived. After 1 month with no food I still weigh 88 kg, down from 104 kg (191 pounds down from 229 pounds). That's a mighty fat anorexic. People were constantly filling my head with doom and gloom scenarios which when combined with sleep deprivation ensured I jumped at every palpitation. Fact is, little 14 year old school girls do drop dead but only after months of fasting on 2 biscuits a day.

So, be it for my own satisfaction I must push the limits of my body. It's not pleasant as I'm not going to give myself the artificial confidence of Gatorade. No daily trips to the medical center. I'll just quietly sit in solitary and write what I can and do the odd interview. Like you say "no progress without sacrifice". No hullabaloo. I can't just sit here and twiddle my thumbs. I have to do something.

So there you go. Nursing/medical staff very good. Prison management wanted me in hospital. Unfortunately, I wasn't sick enough. In the body anyway. Truly though, you'd be pushing a month on just water without supplementation. By week three your electrolytes are plummeting and it's all down hill from there – fat or no spare fat.

Speak soon,
Brendon

14 April 2012

Freedom of the Press and Other Musings

Dear Fredrick,

Received your latest dated 11yh April regarding the recommencement of my hunger strike after a 3 day R & R on a 2/3rds chicken sandwich, cup of pasta, cup of rice and several litres of chicken soup. It has to be done. The job is not finished.

Important blog posts, despite waiting 4 weeks, are still not up. Original postings on "Leon Wende" and the "Collins Class Sub" and other related Israeli intelligence activity in Australia and elsewhere have been wiped

from the internet – this shows how dangerous they are to the State of Israel. Hopefully, some people have saved all this work and it will be appearing on my Blog soon. Maybe then I will consider abandoning the hunger strike? I also sent an email out (as I had a “gag order” on me) that detailed “Operation Talipot” where Israeli military intelligence trained up its best officers in the arts of I.T espionage and then funded them to set up I.T companies that have their fingers in EVERY PIE giving them untold access to truckloads of “data” that can then be used as useful “intelligence” giving the Israeli State untold power to target threats and remove “enemies” and influence the minds of the sleeping, lumpen proletariat. Be it huge “routers” in telephone exchanges around the world, data intercept equipment used by policing and intelligence agencies, high end encryption used by the civilian and military world, radar and communications equipment used by the Australian Airforce, billing services (Amdocs) that give excellent intelligence on who is calling whom and on and on.

The “RAD GROUP” is of special interest with 21 start up companies started by two brothers out of Israeli M.I – the Zohar brothers. Not to mention the social networking services like Facebook, Youtube and Google – all started and run by American Jews – that sends reams of information to the Israeli State. When combined with public Awareness of the notion of the “Sayanim” (“helper” in Hebrew) where Jews loyal to the State of Israel actively provide intelligence and assistance to the intelligence services of the Israeli State, then you have a mammoth Nation Security issue. Of note are the reports from New Zealand of “Sayanim” providing data for potential passport forgeries. One was a Jew of New Zealand citizenship who, when under scrutiny, bolted for Israel and has not been seen since. When the earthquake hit New Zealand early last year, an Israeli National was killed and when his body was discovered, he had multiple passports and his mobile phone records showed the Prime Minister of Israel, Benjamin Netanyahu, had been ringing him furiously! Also, police put out an alert on suspicious Israelis taking advantage of the earthquake chaos and police suspected highly advanced “Trojans” had been placed on police computers. These reports even used the term “Sayanim”, which must be a first since former Mossad officer (“Katsa”) Viktor Ostrovsky wrote about them in his incredible book “The Unmasking Of A Mossad Officer”. Of particular note are local Jews who belong to Zionist socialist youth movements like “Habonim Dror”. They salute the Israeli flag and sing the Israeli National Anthem. They especially are a high security risk, and no policing, military and intelligence organization should employ them, nor should private corporations allow such people access to sensitive information.

I would hope, Fredrick, that organizations such as “The Friends of Palestine” (F.O.P) would focus their energies on such issues. “Fruit” is indeed a potent symbol but

hurting the racist, criminal apartheid state of Israel will be far more effective by calling for boycotts of their high end information technology products and military contracts. Silicon Valley, as we speak, is being rapidly shifted to Israel. I hope the average American is happy. First, certain people shifted their manufacturing to China and now their high tech to Israel. Australia alone has over 2 billion dollars worth of contracts with Israel with high tech sensor systems for the military and database contracts. These should be focussed on by F.O.P – “fruit” just doesn’t cut it. The largest “Intel” computer chip fabrication factory has been built in Israel in 2006 (Youtube “Israel + Intel”), and we know of Israel’s love of inserting hardware backdoors in their hardware. If people would focus on these issues instead of UFO sightings, Yeti sightings, shape shifting lizards and fake moon landings, maybe we might get somewhere? Someone once said to me that 90% of the “Truth Movement” were fakes or mentally ill. Sounds about right. At least I have an official Forensic Psychiatrist’s report that I’m sane.

So, Fredrick, this is why I must continue with the hunger strike. The work is not done. I’m still 84 kg, down from 104 kg, or 230 pounds to 180 pounds. The organs are still working bloods are ok with the few supplements I am taking; blood sugar dipped to 3.3 but is back up to 3.7, so at least I can write and walk without falling over. I’m just careful about getting up suddenly. I’m as weak as a kitten, but that’s what you get when you have the equivalent of one normal meal in 6 weeks. My main worry is more psychological than physical. Prolonged starvation does things to the brain. Combined with the major sleep deprivation I experienced in the first 17 days, it was a recipe for hallucinations, panic attacks and nightmares. I guess I should have asked for a Valium but I quit. I restarted on April 8th, Sunday, almost one week back on it.

I just got back from a visit with Mark Taylor. He was suitably shocked at my appearance. I am too. I don’t look un the mirror. I still have a bit in me. He will ensure my blog is up to date and my letters are published on there.

Of note us an opinion piece that appeared in the West Australian newspaper on Friday, April 13th 2012. The author is Bob Cronin, WA Newspapers group editor in chief. The title of the opinion piece is “Independent Press Paramount”. The issue has recently come up as a family spat between a billionaire mining magnate – Gina Reinhart – and her family had her demanding the West Australian newspaper hand over it’s sources. Let me quote a little. Mark Taylor will scan it and put it on my blog:

“The Australian Press Council in 2003 adopted a charter for a Free Press in Australia. It was based on Article 19 of the Universal Declaration of Human Rights, to which Australia is a signatory, and which declares: ‘Everyone has the right of freedom of expression and opinion. This right includes freedom to hold opinions without

interference and to seek, receive and impart information and ideas through any media and regardless of frontiers’.

The charter defines freedom of the press as: ‘The right of the people to be informed by the press on matters of public interest so that they may exercise their rights and duties as citizens’. The press, it says: ‘Shall not be subject to government license and government authorities should not interfere with the content of news or restrict access to any news source’.

....

In the words of WA News editorial policy: ‘Freedom of the press is a tenuous concept in this country. It is not enshrined in law and depends on public support. That support can only be diminished if the public loses faith in the media as fair, honest, and reliable sources of information’.

Fredrick, I note the line out of Article 19 of the Universal Declaration of Human Rights: “EVERYONE has the right of freedom of expression and opinion”, and “This right includes freedom to hold opinions without interference and to seek, receive and IMPART INFORMATION and ideas through ANY MEDIA and regardless of frontiers”.

Oh really? Have you anything to say about that Fredrick? Anywhooo, I need a lie down. Now I’m the “old man”.

Stay well, hope the Grinch’s are at bay. Don’t forget the 99 cents either! God Bless and “Christos Anesti!”, and Christos Vaskresi!” for April 15th in Greek and Russian “Christ has Risen!”

And we reply, “Indeed He has Risen!” Where there’s life there’s hope and faith. Don’t let the greedy bastards get you down Fredrick.

Brendon

P.S. Please post in a file with a cake in it.

**Friday, 27 April 2012 Day 47
Supreme Court of Western Australia is taking a unprecedented amount of time to come to a decision on Brendon’s appeal....the frustration is beginning to show with Brendon, he has had enough and has just solidified his resolve to continue on with the hunger strike.**

Update on Brendon O’Connell

I received a call from Brendon the other night who informed me that he has resumed his hunger strike as of 4/7/2012. I counceled against this as best I could, reiterating that it was the near-unanimous opinion of the readers/listeners here at TUT that his demise would do NO GOOD to the movement and that his enemies would rejoice at such a development, but to no avail.

Other than making this situation known, I don’t know what else can be done. mg

[#1](#) by **equalizer** on April 15, 2012 - 4:42 pm

This greatly saddens me.....

[#2](#) by **Adalberto Erazo Jr.** on April 15, 2012 - 6:40 pm

Why Brendon?

[#3](#) by **Vickie Jacobs** on April 15, 2012 - 7:51 pm

Brendon, if you read this think.....would you do more by hitting Satan with scripture or by turning to dust? Satan has used the scriptures. Learn them please Brendon.

Our war with Satan and the Israel he now promotes is a war not of flesh.....but of principalities.....the “Princes” of evil of

this world. They want us all dead and gone so as to not show others how they have been fooled.

Ephesians 6:12; “For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of darkness of this world, against spiritual wickedness in high places.”

If this was the way all of us should be dead and gone and would put a smile on my adversary’s lips.

I want my adversary dead.....Psalms 82:7

Don’t let Satan fool you Brandon. He’s fooled too many all ready.

Quoting from Brendon’s letter dated 2/28/2012 he prefers solitude, so solitary confinement” 24/7 is a pleasure for me and not a punishment. There is unfortunately no Internet access at all via any jail of any security rating. I am what’s known as a “Special Profile Prisoner” and everything I send out is gone over including this letter. I don’t mind though because it gives me a chance to educate the prison officers here on my case and Jewish religious and racial supremacism in general. Freemasonry amongst Judges is very strong here. So strong,

they even put the Masonic Pyramid emblem right on the front of the new District Court Building. Even the Prison Officers lapels are a Star of David with acacia leaves which is PURE Freemasonry / Jewish Kabala. End of Quotes.

1. Brendon needs people like you out here to keep him busy with correspondence. He is not allowed to use a pen and has to write his letters with pencil. By the time the guards are through with his letter, the letter becomes difficult to read. Please write to him at the Casuarina Prison in Kwinana West Australia 6966. Mark Glenn has his complete address so please ask for it.

A mind is a terrible thing to waste.

Brendon,

I was SO relieved to hear you stopped your hunger strike recently. Please reconsider this restarting of your hunger

strike. We need you in this battle against the evils of International Jewry/Zionism.

Love, JB

What the Jews fear most is Brendan coming out of incarceration and becoming a high profile and outspoken leadership figure.

They also know that his means of protesting against stores selling Israeli products could wildfire into a "boycot israel" raging fire on an international scale.

Eat something boy, your mission, ain't bringing attention to you, it's bringing attention to the Jew; and you got a hell of a lot more work to do!

<http://theuglytruth.wordpress.com/2012/04/15/update-on-brendon-oconnell-2/>

The agitation in Europe against Muslims is Masonic Judaic inspired and not in the best interest of European nationalism. Breivik's clenched fist salute is not a 'NAZI - extreme rightwing' salute but a derivative of Bolshevik-Communist salutations. The Adolf Hitler National Socialist salute is a clean open handed salute without spreading the thumb at right angle to the hand because that is the Freemason salute.

Brendon O'Connell, as the above letters indicate, is fighting for a world view that is opposed to what breivik envisages will save Europe.

Damon Kitney: Shorten to study Israeli super Superannuation, *The Australian* - Monday, April 23, 2012 P19

Some of the leading figure in the multi-trillion-dollar superannuation sector will join federal Financial Services Minister Bill Shorten on a visit to Israel later this week as the government examines ways for the retirement savings system to help kick-start the Australian venture capital business.

Joining Mr Shorten on the visit will be Australian Prudential Regulation Authority deputy chairman Ross Jones, MLC chief executive Steve Tucker and Challenger-Group retirement income chairman Jeremy Cooper, author of the contentious Cooper Report on the superannuation sector.

During the visit, co-ordinated by the Australia-Israel Chamber of Commerce and the Israeli embassy, the group will meet executives of leading Israeli financial services companies, including its largest insurance group, Migdal, and fellow insurer Clal Insurance Enterprise Holdings.

It will also meet officials of the Capital Market, Insurance, and Savings Department, which supervises insurance and the long-term savings market.

Mr Shorten is also planning one-on-one meetings with Bank of Israel governor Professor Stanley Fischer, chief scientist Avi Hasson and Israeli and Palestinian leaders.

"The chamber is very excited about the Shorten-led trade mission", said AICC chairman Paul Israel, who is based in Tel Aviv. "For the first time Australian pension funds will be exposed to the vibrant and innovative Israeli venture capital and hi-tech scene". Mr Israel said the week-long trade mission would investigate how Israel - with 7.2 million people, a third of the size of Tasmania, 60 per cent desert, only 63 years old with limited natural resources - had produced more start-ups

than large, peaceful and stable nations such as Japan, India, Korea, Canada, Britain and Australia. It would look at Israel's superannuation, tax reform, venture capital and seed fund models, as well as its innovation and entrepreneurship culture, he said.

A spokeswoman for Mr Shorten said it was important that super funds looked beyond traditional assets classes and the government was keen to remove investment barriers to them. She said the trip was designed to improve Australian super funds' understanding of Israel as an investment destination, particularly in light of the strong venture capital sector there.

Mr Shorten also hopes Australian super funds can get an understanding of how Israel's pension funds go about investing in innovative and early stage companies.

The group will also meet entrepreneur and venture capitalist Jon Medved, who co-founded private equity group Israel Seed Partners, an investor in 60 leading Israeli companies. During an AICC trade mission to Israel hosted by Stockland directors Carol Schwartz and Carolyn Hewson, Mr Medved said Australia should do more to use its massive retirement savings pool to back innovation and the venture capital industry.

"Basically, this is about working together with foreign capital. The best opportunity for co-operation with Australia that is basically untapped is your supers. It is the third largest concentration of capital globally."
